ICU Data Systems, A V2R Group Portfolio Company, Rapidly Accelerates National *iCuro*[™] Distribution Strategy

ORLANDO, FL (December 3, 2007) — Leveraging the highly successful results of its strategic sales and distribution relationship with AlphaCor Medical Equipment Sales, ICU Data Systems, Inc. (www.icudata.com) announced today an accelerated distribution plan for its flagship product *iCuro*[™], with expansion into additional target markets nationwide including Washington, DC; Maryland; Northern Virginia; South Carolina; and North Carolina. ICU Data Systems is a portfolio company of the V2R Group (www.v2r.com).

Lori Frank, Chief Executive Officer of ICU Data Systems said, “AlphaCor has clearly demonstrated their ability as a leader in representing emerging technologies, and have successfully introduced *iCuro*[™] into key medical facilities. We are confident we will continue to achieve rapid expansion and distribution of *iCuro*[™], in part based on the immediate successes demonstrated by our alliance with the AlphaCor sales team. In a very short time period, they have dramatically increased the pipeline of activity and prospects for the *iCuro*[™] product line.”

Frank continued, “The initial agreement with AlphaCor, which was announced in August, covered representation only in the target market of Pennsylvania. After evaluating the results of the three month trial period, we were extremely impressed and made the decision to enter into a three year contact with AlphaCor for distribution of *iCuro*[™] in the additional territories of Washington, DC; Maryland; Northern Virginia; South Carolina; and North Carolina.”

ICU Data Systems Chairman Bahram Yusefzadeh commented, “The announcement of our expanded strategic alliance with AlphaCor is significant, as it signals ICU Data Systems’ ability to quickly and efficiently penetrate new markets. A core element of our growth strategy includes the scalability of *iCuro*’s[™] product roll-out simultaneously into new territories.”

About ICU Data Systems, Inc.

ICU Data Systems, Inc., a portfolio company of V2R Group, Inc., is a provider of critical care medical technology solutions, with offices in Orlando and Gainesville, Florida, and Minneapolis, Minnesota. The company’s flagship product, *iCuro*[™] is a unique, automated real-time bedside clinical data management solution for bedside clinicians in intensive care units. This cost-effective data solution supersedes the hourly manual charting methods used today, by

capturing and centralizing patient data in real time from multiple clinical data sources. Utilizing its proprietary and patented technology, ICU Data Systems also enables the intensive care units of hospitals to easily comply with JCAHO standards and HIPAA mandates and is FDA-cleared and UL-certified. For more information, visit: www.icudata.com.

About V2R Group, Inc.

V2R Group is a leading company focused on the commercialization and management of highly innovative technologies. A key element of the V2R business model is to partner with universities to facilitate the transfer and commercialization of revolutionary technologies, with a focus on mid-stage high-tech businesses that have been developed past the initial research and development stage. V2R is led by a management team with many years of experience in technology commercialization and business. V2R Group current portfolio companies include ICU Data Systems, Red Lambda, and Clavina Diagnostic Systems. For more information, visit www.v2r.com

About AlphaCor, Inc.

AlphaCor Inc. was founded in 1993 as an independent medical equipment sales organization dedicated to emerging technologies. The company, encompassing twelve states in the Mid-Atlantic region, has a proven track record in successfully launching companies and their products into new markets and has worked with industry leaders including Medtronic, Boston Scientific, and Black Diamond Video. The team of experienced healthcare professionals also serve as clinical specialists, creating a clinical bond with key physicians and medical facilities, allowing the company to expedite the launch of new products and technologies.

###

iCuro™ was developed by a team of scientists at The University of Florida Colleges of Medicine & Engineering. Portions of the funding for the initial research and development were provided by National Medical Technology Testbed (NMTB), an organization funded by the Department of the Army under Cooperative Agreement DAMD17-97-2-7016.
