### **ICU Data Systems, A V2R Group Portfolio Company, Announces *iCuro*<sup>™</sup> Selected for Use at Khetarpal Hospital in India**

**ORLANDO, FL (July 17, 2007)** — ICU Data Systems, Inc. ([www.icudata.com](http://www.icudata.com)), a provider of critical care medical technology solutions, announced today that an agreement has been reached with Khetarpal Hospital in Delhi, India for a trial implementation of *iCuro*<sup>™</sup> in the Khetarpal Intensive Care Unit (ICU). The agreement is part of the recently announced distribution partnership with Delhi-based Mobineers Info Systems Pvt. Ltd. ([www.mobineers.org](http://www.mobineers.org)), a leading Indian software and IT service provider in the sectors of health care, power, education and government.

“We are pleased to announce the upcoming trial implementation of *iCuro*<sup>™</sup> in the Intensive Care Unit at Khetarpal Hospital,” said ICU Data Systems CEO Lori Frank. “Our distribution partner in India, Mobineers, will facilitate the integration of *iCuro*<sup>™</sup> at Khetarpal Hospital and their team will work closely with Khetarpal physicians and nurses to evaluate increased productivity and time savings.”

Mobineers Managing Director and Founder Mr. Abhay Patodia commented, “ICU Data Systems and Mobineers have identified a significant need for new products and medical technologies in the Indian market. The Mobineers team is honored to have the opportunity to distribute ICU Data Systems’ innovative technology, *iCuro*<sup>™</sup>, and we are excited to announce this agreement with Khetarpal Hospital. Our team has the knowledge, experience and resources to successfully implement *iCuro*<sup>™</sup> into Khetarpal Hospital and we look forward to further developing our relationship with them.”

Dr Anil Khetarpal, founder of Khetarpal Hospital added, “We believe *iCuro*<sup>™</sup> will deliver great benefits to the Khetarpal Intensive Care Unit. For example, currently the ICU uses a manual charting process. The instant bedside charting provided by *iCuro*<sup>™</sup> is anticipated to result in increased time savings, productivity and quality gains, as well as enhanced clinical trending capabilities. We feel the addition of *iCuro*<sup>™</sup> to our ICU will result in benefits for patient care and positive economic impact for the hospital.”

Bahram Yusefzadeh, V2R Group and ICU Data Systems Chairman said, “The announcement of our agreement with

-More-

Khetarpal Hospital is key, as it marks the beginning of global expansion for ICU Data Systems into a market that holds tremendous potential. We anticipate making similar announcements in the near future and we believe ICU Data Systems has the ability to rapidly expand into markets both domestically and worldwide.”

**About Dr Anil Khetarpal and Khetarpal Hospital**

Dr Anil Khetarpal, MBBS, MS, FAIS (General Surgery) is a renowned surgeon and is the founder of Khetarpal Hospital in Delhi, India. **About Mobineers Info Systems Pvt. Ltd.**

Mobineers Info Systems Pvt. Ltd. is a software technology company based in India with delivery models of projects & services. The company is a leading software and IT services company in the sectors of health care, power, education and government, with the right mix of an experienced management team and technology-skilled resources. The company’s mission is to stay at the frontier of technology, identify the changes and potential in the fast growing Indian market and to serve it with innovative solutions. For more information, visit: [www.mobineers.org](http://www.mobineers.org).

**About ICU Data Systems, Inc.**

ICU Data Systems, a portfolio company of V2R Group, Inc., is a provider of critical care medical technology solutions, with offices in Orlando and Gainesville, Florida, and Minneapolis, Minnesota. The company’s flagship product, iCuro™ is a unique, automated real-time bedside clinical data management solution for bedside clinicians in intensive care units. This cost-effective data solution supersedes the hourly manual charting methods used today, by capturing and centralizing patient data in real time from multiple clinical data sources. Utilizing its proprietary and patented technology, ICU Data Systems also enables the intensive care units of hospitals to easily comply with JCAHO standards and HIPAA mandates. For more information, visit: [www.icudata.com](http://www.icudata.com).

**About V2R Group, Inc.**

V2R Group, the parent company of ICU Data Systems, focuses on the commercialization and management of highly innovative technologies. A key element of the V2R business model is to partner with universities to facilitate the transfer and commercialization of revolutionary technologies, with a focus on mid-stage high-tech businesses that have been developed past the initial research and development stage. V2R is led by a management team with many years of experience in technology commercialization and business. For more information: visit: [www.v2r.com](http://www.v2r.com).

###

iCuro™ was developed by a team of scientists at The University of Florida Colleges of Medicine & Engineering. Portions of the funding for the initial research and development were provided by National Medical Technology Testbed (NMTB), an organization funded by the Department of the Army under Cooperative Agreement DAMD17-97-2-7016.
